many of those converts who have given the idea its new respectability are included in this book baltimore mayer kurt schmoke nobel laureate milton friedman columnists anthony lewis and william f buckley jr new york legislator joseph galiber social policy analyst charles murray economist thomas sowell the editors of the economist and two of the leading scholarly proponents of drug legalization ethan a nadelmann of princeton university and james osnowski of citizens against prohibition this volume provides an introduction to the legislation alternative it is must reading for any american seriously concerned about drugs the drug war and what they are doing to america

after 69 years of banning cannabis and 42 years of banning heroin in australia it is clear that prohibition has been a resounding and expensive failure regulating cannabis sales in the first instance and providing heroin through clinics to selected long term users will take the profit out of the black market reduce deaths and disease lessen crime and corruption and save the community a fortune the latest in the controversial frontlines pamphlet series from unsw press this book by a doctor who works with drug users and a policy adviser to politicians argues that we are nearing the end of the prohibition era stressing that we must live in the world as it is rather than the world as we would like it to be the authors explain why we should change our drug laws and describe some possible reforms they also correct popular misconceptions about illicit drugs and answer some frequently asked questions

in the united states today the use or possession of many drugs is a criminal offense can these criminal laws be justified what are the best reasons to punish or not to punish drug users these are the fundamental issues debated in this book by two prominent philosophers of law douglas husak argues in favor of drug decriminalization by clarifying the meaning of crucial terms such as legalize decriminalize and drugs and by identifying the standards by which alternative drug policies should be assessed he critically examines the reasons typically offered in favor of our current approach and explains why decriminalization is preferable peter de marneffe argues against drug legalization demonstrating why drug prohibition especially the prohibition of heroin is necessary to protect young people from self destructive drug use if the empirical assumptions of this argument are sound he reasons drug prohibition is perfectly compatible with our rights to liberty

the crisis in drug prohibition contents preface the consequences of prohibition drugs a problem of health and economics the case for legalization thinking about drug legalization how to win the war on drugs toward a moral drug policy appendix other views

in this unique and engaging book sue pryce tackles the major issues surrounding drug policy why do governments persist with prohibition policies despite their proven inefficacy why are some drugs criminalized and some not and why does society care about drug use at all pryce guides us through drug policy around the world

drugs and the american dream presents an up to date anthology of chiefly contemporary readings that explore the myriad sociological correlates of licit and illicit drug use in the united states unique approach to the topic that offers an organizing theme of sociological concepts age social class ethnicity gender as well as societal response to drug use including drug education treatment and policy the book is interdisciplinary in terms of approach making it useful in a variety of contexts includes a wide array of ethnographic articles that place reader directly into the perspectives of drug users through their own voices brief framing introductions to each article provide interconnective tissue guiding the student to the heart of what s important in the piece that follows offers a balanced approach to various substances tobacco alcohol prescription drugs and illegal drugs provides students with a realistic perspective on the extent of substance use in american society as

well as a critical appreciation of the real versus imagined harms associated with use of various substances

a balanced and sophisticated analysis of the true costs benefits and consequences of enforcing drug prohibition the war on drugs claims thousands of lives every year in the united states each year the u s government spends over 30 billion on the drug war and arrests 1 5 million american citizens on drug related charges there are now nearly half a million americans imprisoned for drug offenses the official claim is that drug prohibition deters drug use reduces crime and improves public health but is this claim valid in drug war crimes jeffrey miron offers a balanced and sophisticated analysis of the true costs benefits and consequences of drug prohibition the evidence yields a disturbing finding the more resources given to the drug war the greater the homicide rate miron then examines various alternatives to drug prohibition and identifies the most effective solution

this provocative volume makes a valuable contribution to debates on drug legislation it is the only book that analyses and assesses all regulatory alternatives to drug prohibition the author brings together research from the scientific medical ethical and legal fields to criticize drug laws and enforcement policies of many countries including the u s and canada

retaining the focus and the spirit of the acclaimed first edition the drug legalization debate second edition addresses the major issues involved in the continuing drug legalization debate including deterrence treatment education and prevention it also examines drug use trends at the end of the millennium the use of cannabis as a wonder drug and a look at whether legalizing drugs would really reduce violent crime

long listed for the george ryga award canada s drug laws are constantly changing but what does canada s history of drug prohibition say about its future busted is an illustrated history of canadian drug prohibition and resistance to that prohibition reproducing over 170 archival and contemporary drawings paintings photographs film stills and official documents from the 1700s to the present susan boyd shows how canada s drug prohibition policies evolved and were shaped by white supremacy colonization race class and gender discrimination this history demonstrates that prohibition and criminalization produces harm rather than benefits including the arrest of thousands of canadians each year for cannabis related offences and the current drug overdose crisis visually engaging and approachably written busted is a timely examination of canada s history of drug control and movements against that control susan boyd argues that in order to chart the future it is worthwhile for us as canadians to know our history of prohibition and how it continues to intersect with colonization and race class and gender injustice

the drug control regime established by the international community has not succeeded in curbing either the demand for or the offer of narcotics but despite a series of developments in the americas including the legalisation of cannabis in uruguay and in several states in the united states of america there is still little support in

Europe for repealing drug prohibition laws nevertheless a gradual policy convergence reveals the emergence of a European model favouring public health strategies over a strictly penal approach to combatting drugs while growing transnational support for legalisation indicates the persistence of an alternative paradigm for drug policy this book examines the various influences on drug policies in Europe as grassroots movements NGO networks private foundations and academic research centres increasingly confront the prevailing discourses of drug prohibition pursuing an interdisciplinary approach and bringing together legal scholars social scientists and practitioners it provides a comprehensive and critical assessment of drug policy reform in Europe

there is an ongoing American policy debate about the appropriate legal status for psychoactive drugs prohibition decriminalization and legalization positions are all premised on assumptions about the behavioral effects of drug laws what is actually known and not known about these effects is reviewed rational choice models of legal compliance suggest that criminalization reduces use through restricted drug availability increased drug prices and the deterrent effect of the risk of punishment research on these effects illustrates the need for a more realistic perspective that acknowledges the limitations of human rationality and the importance of moral reasoning and informal social control factors there are at least 7 different mechanisms by which the law influences drug use some of which are unintended and counterproductive this framework is used to explore the potential behavioral effects of decriminalization and legalization

this volume is a new contribution to the dynamic scholarly discussion of the control and regulation of psychoactive substances in culture and society offering new critical reflections on the reasons prohibitions have historically arisen the book analyses prohibitions as ambivalent and tenuous interactions between the users of psychoactive substances and regulators of their use this original collection of essays engages with contemporary debates concerning addiction intoxication and drug regulation and will be of interest to scholars in the arts humanities and social sciences interested in narratives of prohibition and their social and cultural meanings

retaining the focus and spirit of the widely adopted and acclaimed first edition the drug legalization debate second edition offers several alternatives and addresses the major issues involved in the continuing drug legalization debate this volume delves into the history of drug use and abuse in America and the federal government's approach to drug control including deterrence treatment education and prevention chapters confront topics such as the decriminalization of marijuana the risk of the war on drugs an enlightened legalization policy and discussion of the ethical and legal dilemmas at stake updates of retained chapters and new chapters deal with drug use trends of the 90s including the use of cannabis as a wonder drug and a look at whether legalizing drugs would really reduce violent crime in addition the second edition features a substantive introduction and closes with Paul Stares' acclaimed piece titled drug legalization time for a real debate students and professionals in substance abuse criminology sociology psychology and social work will find this book essential reading

retaining the focus and the spirit of the acclaimed first edition the drug legalization debate second edition addresses the major issues involved in the continuing drug

legalization debate including deterrence treatment education and prevention it also examines drug use trends at the end of the millennium the use of cannabis as a wonder drug and a look at whether legalizing drugs would really reduce violent crime

the focus of this edited collection is a thoughtful multidisciplinary presentation of past and present u s drug policies and whether they are winning the so called war on drugs they aren t for the great majority of ills ascribed to drugs are actually caused by the black market created by drug prohibition the more successful the war on drugs is in making the drug trade a dangerous business the greater are the profits from increased prices and hence the greater the incidence of disease corruption social disorder and death drugs and society provides individuals with the information they need to construct an alternative policy

this book is a collection of studies of drug policies in several latin american countries the chapters analyze the specific histories of drug policies in each country as well as related phenomena and case studies throughout the region it presents conceptual reflections on the origins of prohibition and the war on drugs including the topic of human rights and cognitive freedom further the collection reflects on the pioneering role of some latin american countries in changing paradigms of international drug policy each case study provides an analysis of where each state is now in terms of policy reform within the context of its history and current socio political circumstances concurrently local movements initiatives and backlash against the reformist debate within the hemisphere are examined the recent changes regarding the regulation of marijuana in the united states and their possible impact on latin america are also addressed this work is an important up to date and well researched reference for all who are interested in drug policy from a latin american perspective

this paper presents an argument for the legalization of psychoactive drugs that are currently prohibited by law drawing on international drug policy research the author examines the irish policy in its historical medical social and political context the legitimacy of current policy is severely undermined by such an examination and the ineffectiveness of the war suggests that new options must be considered

an overview of the international drug business that concentrates on the economic forces that drive the market separate chapters on cocaine and crack heroin and marijuana track the cultivation refinement and distribution of the drugs usually in the us other chapters address the social and public policy aspects of the drug trade objective and balanced annotation copyrighted by book news inc portland or
